## Introduction

Thank you for purchasing the VnM®4 Pro SignMaker by Cobra Systems, Inc.

The compact, high-performance VnM®4 Pro SignMaker System has been developed to provide a fast, easy, and hassle-free solution to all your industrial applications. Print directly from the smart printer, or have the ability to print via USB connection (not supported unless used with purchased VnM LabelDirect or BarTender software).

## Specifications

|                       |  |
|-----------------------|--|
| Dimensions:           | 13.07" (L) x 8.90" (W) x 7.80" (H)     |
| Operating Conditions: | 41° ~ 104° F (5° ~ 40° C )             |
| Storage Conditions:   | -40° ~ 120° F (-40° ~ 60° C )          |
| Resolution:           | 203 DPI                                |
| AC Input:             | 100 - 240V, 2.5A, 50-60Hz Power Supply |
| DC Output:            | 24V, 3.75A, 90W (external adapter)     |
| Print Speed:          | Variable, from 2" to 8" per second     |
| Connections:          | VnM®4 Pro USB Keyboard, USB 2.0, LPT   |

## Warranty

VnM®4 Pro SignMaker comes with a Limited Lifetime Warranty, 1-Year Print-head Warranty, 6-Month Cutter Warranty, and 1-Year Keypad Warranty.

## Out of the Box

The VnM®4 Pro SignMaker System includes:

1. VnM®4 Pro SignMaker Printer (1)
2. VnM®4 Pro SignMaker Keypad with USB Cable (1)
3. Printer Power Supply (1)
4. Printer Power Cord (1)
5. Printer USB Cable for PC Connection (1)
6. Take-Up Core for VnM® Ink (1)
7. VnM® Ink Take-Up Spindles (2)

PRINTER MUST BE TURNED OFF!

1. Open printer lid by rolling down the green tabs on each side located toward the front of the printer.

2. Slide ink roll onto spindle and set in rear hub. Insert second spindle into empty cardboard core and set in front hub. Pass ink ribbon under the ink roll carriage and print head. Attach ink ribbon to the empty core and take up any slack before closing cover.

3. Slide new media into the printer's spindle mount.

4. Feed media, face up through the cutter slot. Adjust the green media guides to fit the width of the vinyl, centered in the printer.

5. With the printer powered off, plug the keyboard and power cord into the rear of the printer.

6. Plug the power cord into a properly grounded AC outlet.

**NOTE:** Always have the VnM printer cover closed when powering on.

VnM4 Pro SignMaker Top View

- 1. Ribbon access cover
- 2. LCD display
- 3. Feed button
- 4. Printer top cover
- 5. Top cover latch
- 6. Cutter
- 7. Power switch

VnM4 Pro SignMaker Rear View

- 7. Power receptacle
- 8. RS-232 DB-9 port
- 9. LAN connection
- 10. SD card port
- 11. USB port for PC
- 12. USB port for Keyboard

VnM4 Pro SignMaker Interior View

- 12. Top cover
- 13. Ink ribbon access cover
- 14. Adjustable centering guides
- 15. Print head
- 16. Spindle slot
- 17. Top cover support

- 

**1**

Always turn off printer when changing Ink Rolls! Open the ribbon access cover.
- 

**2**

Load front ink spindle with an empty take-up core.
- 

**3**

Load rear ink spindle with the new ink roll.
- 

**4**

Pull ink from rear to front going under the print head and up to the empty take-up core.
- 

**5**

Tape the ink to empty take-up core.
- 

**6**

Make sure ink spindles are as shown. NOTE: Larger circular end on the left side.
- 

**7**

Wind the front ink spindle to take up the slack, making sure there are no wrinkles in the ink.
- 

**8**

Close cover, you're ready to load Label Media.

NOTE: Always have the VnM printer cover closed when powering on.

1

Always turn off printer when changing Media Rolls! Use only VnM®4 Media.

2

Insert the VnM®4 media roll into the printer's spindle mount.

3

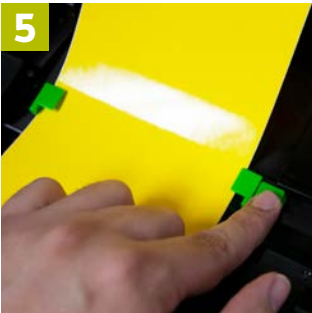

Pull slack of media towards the front of the printer.

4

Feed and pull the media through cutter.

5

Adjust guides to fit the media by pressing down on the button.

6

Pull a bit more slack of the media through and past the cutter as you close the printer.

7

Slowly push down on the printer lid to fully close the cover. NOTE: You should hear a clicking sound.

8

Turn on the printer by flipping the power switch located on the right of the printer. You're ready to start printing!

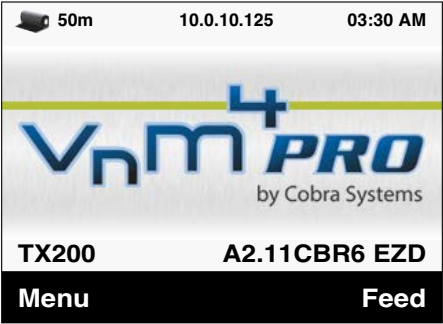

NOTE: Handle media on the sides to prevent fingerprints on Vinyl.

### Connecting VnM®4 Pro Keyboard and Powering Up

1. Place printer on a flat, secure surface.
2. Make sure power switch is OFF.
3. Connect VnM®4 Pro Keyboard or PC to the VnM®4 Pro SignMaker via USB port.
4. Plug the printer into your power source, preferably using a surge protector.
5. Turn on the VnM®4 Pro SignMaker.

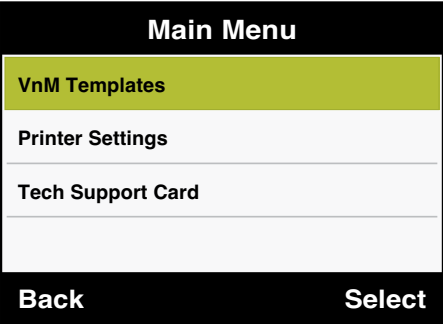

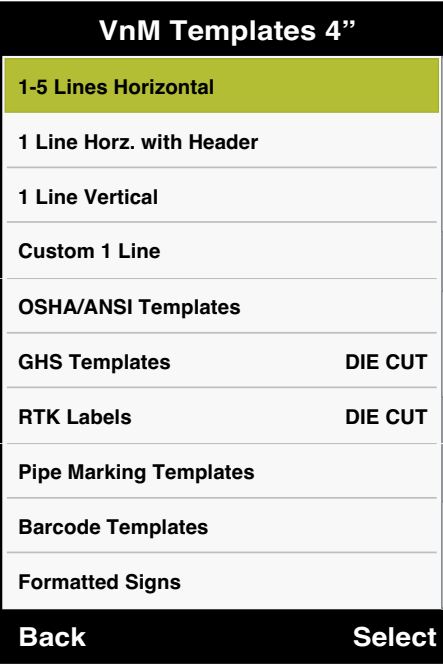

The VnM®4 Pro navigation tree on the left displays the flow and order of all the available options/templates.

To begin printing, let's first power up your printer. Once on, Select VnM Templates and select the size of media that is loaded in the printer.

Detailed information about each template starts on page 10.

VnM®4 Pro SignMaker Templates

Use the UP and DOWN arrow keys on the VnM®4 Pro Keyboard to navigate through the templates.

Press the ENTER key to select your template or to continue to the next prompt.

If you would like to return to the previous screen or an entry error has been made, press the ESC key and re-enter the information.

| Main Menu         |        |
|-------------------|--------|
| VnM Templates     |        |
| Printer Settings  |        |
| Tech Support Card |        |
|                   |        |
| Back              | Select |

To make changes to your printers display, print settings or font settings, press ESC on printers keyboard until you reach the Main Menu. Select Printer Settings and press Enter.

Once in the Printer Settings, you will be able to make changes to the following...

Label Settings, Printers Speed, Printers Density and any Font or Symbol Settings.

To Change the Print Settings of your Printer

|                |
|----------------|
| Print Settings |
|----------------|

1. Select **Print Settings** by pressing **Enter** on the keyboard.
2. Select one of the following options...  
**Speed** - To change the printers speed.

**Cutter** - To change the cutter settings.
3. Press ESC to exit to the Main Menu and proceed with making your sign or label.

|       |
|-------|
| Speed |
|-------|

1. Select **2** for the recommended speed and press Enter.

|         |
|---------|
| Density |
|---------|

1. Select the recommended density based on the ink being used and press Enter.  
**Black: 3-5    White: 10-13**  
**Blue / Green / Red: 1-3**

|        |
|--------|
| Cutter |
|--------|

1. Select **ON** or **OFF** ur printer cutter option and press Enter.

To Change the Font Settings of your Printer

|               |
|---------------|
| Font Settings |
|---------------|

1. Select **Font Settings** by pressing **Enter** on the keyboard.
2. Select your Font option and press Enter. (Reference Fonts on Pg.21)
3. Press ESC to exit to the Main Menu and proceed with making your sign or label.

| Select Font |        |
|-------------|--------|
| Bold        |        |
| Normal      |        |
| Italic      |        |
| Utility     |        |
| Pipe Marker |        |
| Symbols 1   |        |
| Symbols 2   |        |
| Symbols 3   |        |
| Back        | Select |

NOTE: See pages 21 - 22 for fonts and symbols.

To Change the Symbol Settings of your Printer

**Symbols Settings**

- 1. Select **Symbols Settings** by pressing **Enter** on the keyboard.
- 2. Select your Symbol option and press Enter. (Reference Fonts on Pg.21)
- 3. Press ESC to exit to the Main Menu and proceed with making your sign or label.

| Select Symbol |        |
|---------------|--------|
| Symbols 1     |        |
| Symbols 2     |        |
| Symbols 3     |        |
| Symbols 4     |        |
| Back          | Select |

NOTE: See pages 21 - 22 for fonts and symbols.

To Change the Label Settings of your Printer

**Label Settings**

- 1. Select **Label Settings** by pressing **Enter** on the keyboard.
- 2. Choose a Label Color and press Enter. (This is just for display on your preview)
- 3. Choose a Ink Color and press Enter. (This is just for display on your preview)
- 4. Press ESC to exit to the Main Menu and proceed with making your sign or label.

| Choose Label Color |  |
|--------------------|--|
| Red                |  |
| Yellow             |  |
| Orange             |  |
| Gray               |  |

| Choose Ink Color |  |
|------------------|--|
| White            |  |
| Black            |  |
| Blue             |  |
| Green            |  |

The 1-5 Line Horizontal template is the most versatile template available in the VnM® 4 Pro SignMaker. Create anything from 1 to 5 lines of text with or without an icon/symbol and your font size will adjust automatically to your selected media size.

The CAUTION sign below was created by selecting the SYMBOLS 1 font (explained on page 8). Select the 1 to 5 LINE HORIZONTAL template and choose 1 for the number of lines to be printed. For this CAUTION sign, you will enter: /CAUTION (The / mark represents the CAUTION symbol.) To use any other symbols, use the reference chart on pages 21-22.

a) 1 Line Template sign, no (N) reverse text printing, using SYMBOLS 1 font

1. Select the **1-5 Lines Horizontal** template by pressing **Enter** on the keyboard.
2. If you wish to add a symbol or icon, scroll to select one of the location options.
3. Select the Number of Lines of text you would like on your sign or label.
4. Enter your Text and press Enter when ready to continue.
5. Enter your Symbol or Icon character, press Enter to continue. (Reference Symbols on Pg.21)
6. If you would like to Reverse the imprint of your text, select Yes and press Enter to continue.
7. Preview your sign or label and press Enter if you are ready to print.
8. Enter the quantity of signs to print and press Enter.

b) 1 Line Template, (Y) reverse text

c) 5 Lines Template

d) 1 Line Template, no (N) reverse text

The 1 Line Horz. with Header template allows you to create signs with two different sizes of type, samples a) and b). The samples below were created with this template.

a) 1 Line Horz. with Header

b) 1 Line Horz. with Header

1. Select the **1 Line Horz. with Header** template by pressing **Enter** on the keyboard.
2. Enter your Header Text and press Enter when ready to continue.
3. Enter your Sub Line Text and press Enter when ready to continue.
4. If you would like to Reverse the imprint of your text, select Yes and press Enter to continue.
5. Preview your sign or label and press Enter if you are ready to print.
6. Enter the quantity of signs to print and press Enter.

The 1 Line Vertical template allows you to easily create instant vertical signs and labels. The samples below were created with our 1 Line Vertical template.

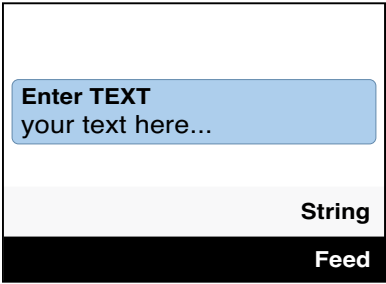

a) No (N) reverse text

b) Reverse (Y) text

c) SYMBOLS 1 font

1. Select the **1 Line Vertical** template by pressing **Enter** on the keyboard.
2. Enter your Text and press Enter when ready to continue.
3. If you would like to Reverse the imprint of your text, select Yes and press Enter to continue.
4. Preview your sign or label and press Enter if you are ready to print.
5. Enter the quantity of signs to print and press Enter.

## VnM4 Tips

**WHEN SMALL TYPE IS NEEDED  
WHILE USING 4" MEDIA, SELECT  
A SMALLER MEDIA WIDTH, E.G. 2"  
OR 3".**

The Custom 1 Line template is a great way to label parts bins, 5S and Tool applications. The samples below were created with our Custom 1 Line template.

a) 4 x 1 inches (actual size)

1. Select the **Custom 1 Line** template by pressing **Enter** on the keyboard.
2. Select the preferred Height of your label and press Enter to continue.
3. Enter your Text and press Enter when ready to continue.
4. Preview your sign or label and press Enter if you are ready to print.
5. Enter the quantity of signs to print and press Enter.

b) 4 x 2 inches (actual size)

The OSHA/ANSI Haz Com template is perfect for creating Caution, Danger, Warning, Notice, and Safety signs. The samples below were created with our OSHA templates.

a) OSHA/ANSI, DANGER, 2 lines

b) OSHA/ANSI, NOTICE, 3 lines

c) OSHA/ANSI, WARNING, 4 lines

| VnM Templates 4"       |         |

The Pipe Marking template meets ANSI/ASME letter height standards and tape lengths, allowing you to create custom pipe markers.

Below is a 2 x 12 pipe marker example identifying the contents of the pipe as NITROGEN (a).

a) 2 x 12 inches

- 1. Select the **Pipe Marking Templates** by pressing **Enter** on the keyboard.
- 2. Scroll and select the preferred width of your pipe marker and press Enter to continue.

1" x 7" (1 Line)      2" x 12" (1 Line)  
2" x 14" (1 Line)      3" x 24" (1 Line)  
3" x X" (1 Line)      4" x 24" (1 Line)  
4" x 32"(1 Line)      4" x X" (1 Line)

- 1. Enter your Text and press Enter when ready to continue.  
(Reference the Pipe Marker font on Pg 21 for any available symbols)
- 2. Preview your sign or label and press Enter if you are ready to print.
- 3. Enter the quantity of signs to print and press Enter.

- 1. Enter your Text or Symbol and press Enter when ready to continue.  
(Reference the Pipe Marker font on Pg 21 for any available symbols)
- 2. Enter the inch diameter of your pipe and press Enter to continue.
- 3. Preview your sign or label and press Enter if you are ready to print.
- 4. Enter the quantity of signs to print and press Enter.

b) 1 x 7 inches

c) 2 inch Repeat Template, 4 inch diameter

d) 3 x 24 inches

### VnM4 Tips

**IF YOU ARE NOT SURE WHICH TEMPLATE TO USE, REFER TO THE VNM PIPE MARKING GUIDE ON PAGE 22.**

The Barcode templates include a basic 4" x 1" inventory/asset label, and a 4" x 2" bin/shelf barcode template utilizing the CODE39 symbology.

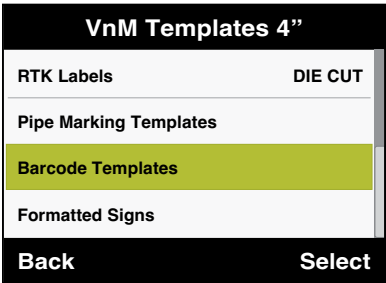

Below are samples of the 4 x 1 and 4 x 2 barcode templates.

a) 2 x 1 Barcode Template

b) 4 x 2 Bin Label Template

c) QR Code

1. Enter Barcode and press Enter.
2. Select if you would like to print human readable characters and press Enter.
3. Preview your label and press Enter if you are ready to print.
4. Enter the quantity of labels to print and press Enter.

1. Enter QR code text/numbers and press Enter.
2. Preview your label and press Enter if you are ready to print.
3. Enter the quantity of labels to print and press Enter.

1. Enter your text detail and press Enter.
2. Enter Barcode and press Enter.
3. Select if you would like to print human readable characters and press Enter.
4. Preview your label and press Enter if you are ready to print.
5. Enter the quantity of labels to print and press Enter.

Fire Templates

- 1. Scroll to FORMATTED SIGNS and press ENTER.
- 2. Select FIRE TEMPLATES and press ENTER.
- 3. Select a Fire Template option.

For a Fire Extinguisher sign (a) or (b) press 1

- 4. Select a label size option.  
Press 1 for a 4 x 12 sign (a)  
Press 2 for a 4 x 18 sign (b)

For a Fire Hose sign (c) or (d) press 2

- 4. Select a label size option.  
Press 1 for a 4 x 12 sign (c)  
Press 2 for a 4 x 18 sign (d)

- 5. Enter the quantity to print and press ENTER.

NOTE: 4" media is required.

Aisle Markers

- 1. Scroll to FORMATTED SIGNS and press ENTER.
- 2. Select AISLE MARKERS and press ENTER.
- 3. Select a Floor Marker option.  
Press 1 for ARROW (e)  
Press 2 for DASH (f)
- 4. Enter the quantity to print and press ENTER.

Arc Flash Template

- 1. Scroll to FORMATTED SIGNS and press ENTER.
- 2. Select ARC FLASH TEMPLATE and press ENTER.
- 3. Enter the quantity to print and press ENTER.

NOTE: Pre-printed Die-Cut Header labels are required for this selection.

g) Arc Flash Template

The Font Settings option allows you to use any of the following fonts and symbols. Use the legend below to choose the appropriate symbol(s) for your sign.

Safety signs are an important element to safety and hazard identification. Identifying hazards cuts down on employee injuries and can save lives. Examples of standards when indicating certain situations or hazards:

**DANGER**

Indicates an immediate hazard that has a high probability of severe injury or death.

**ANSI**

**OSHA**

ANSI Danger for Arc Flash Labels

**WARNING**

Indicates a potentially hazardous situation that if not avoided may result in serious injury or death.

ANSI Warning for Arc Flash Labels

**CAUTION**

Indicates a potentially hazardous situation that may result in minor or moderate injury, but not death.

ANSI Caution for Arc Flash Labels

**NOTICE**

Indicates general information necessary to avoid any confusion.

ANSI and OSHA header templates are for the VnM4 and VnM8 SignMaker's, in addition to header die cut media.

**SAFETY**

Indicates general information necessary to avoid any confusion.

Create your sign in seconds and save money and time.

# Pipe Marker Color Chart

| VnM Media                   | Description   | Pipe Properties              | Example                    |
|-----------------------------|---|------------------------------|----------------------------|
| <b>YELLOW</b><br>VNMYL-XXXX | Fluids which are a vapor or produce vapors that can ignite and continue to burn in air.       | <b>FLAMMABLE</b>             | <b>NATURAL GAS</b>         |
| <b>BROWN</b><br>VNMBN-XXXX  | Fluids that may burn but are not flammable.   | <b>COMBUSTIBLE</b>           | <b>OXYGEN</b>              |
| <b>ORANGE</b><br>VNMON-XXXX | Fluids which are corrosive or toxic or will produce corrosive or toxic substances.            | <b>TOXIC &amp; CORROSIVE</b> | <b>SULFURIC ACID</b>       |
| <b>RED</b><br>VNMRD-XXXX    | Water and other substances (e.g.: Halon, CO2) used in sprinkler fire fighting piping systems. | <b>FIRE QUENCHING</b>        | <b>SPRINKLER WATER</b>     |
| <b>GREEN</b><br>VNMGN-XXXX  | Any other water except for water used in sprinkler & fire fighting piping systems.            | <b>OTHER WATER</b>           | <b>DOMESTIC COLD WATER</b> |
| <b>BLUE</b><br>VNMBL-XXXX   | Any vapor or gas under pressure that does not fit in a category above.                        | <b>COMPRESSED AIR</b>        | <b>COMPRESSED AIR</b>      |

## Pipe Marker Placement

Pipe markers must be placed in a manner which is visible to all persons when looking up, down, or at eye level, and that the marker lettering faces out for easy identification.

Mark pipe adjacent to all valves and flanges

Mark pipes on both sides of floor or wall intersections.

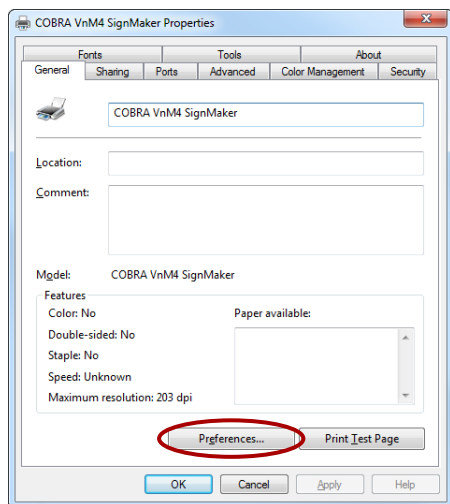

Mark pipes at 25' to 50' intervals on straight runs.

| Outside Pipe Diameter Including Covering | Minimum Length of Label Field Color | Minimum Height of Letters | VnM4 Pipe Marking Template    |
|--|-------------------------------------|---------------------------|-------------------------------|
| .75" - 1.25" (19 - 32 mm)                | 8" (203 mm)                         | .5" (203 mm)              | 2" Repeat Template            |
| 1.5" - 2" (38 - 51 mm)                   | 8" (203 mm)                         | .75" (19 mm)              | 1" x 8" Template              |
| 2.5" - 6.0" (64 - 152 mm)                | 12" (305 mm)                        | 1.25" (32 mm)             | 2" x 14" or 2" x 12" Template |
| 8.0" - 10.0" (203 - 254 mm)              | 24" (610 mm)                        | 2.5" (64 mm)              | 4" x 24" or 3" x 24" Template |
| Over 10.0" (Over 254 mm)                 | 32" (813 mm)                        | 3.5" (89 mm)              | 4" x 32" Template             |

### PC Connection for additional template and printing options

1. Download & install the PC VnM SignMaker Print Driver from: [vnmsignmaker.com](http://vnmsignmaker.com)
2. Once the Driver has been installed, go to:  
Start > Control Panel > Printers and Faxes  
Right mouse click on the VnM SignMaker Printer icon and click on "Properties".
3. Click on Printing Preferences, then click on the "Stock" Tab.

4. Set Stock Type to "Continuous".
5. Set the Post-Print Action to "Cut" and the Occurrence to "After Every Page".
6. Connect USB cable to the PC's USB port.
7. Plug power cord into AC Power Receptacle at the rear of the printer, then plug the power cord into a surge protector.
8. Print signs and labels on the VnM SignMaker using programs such as Microsoft Word, Adobe Illustrator, and other popular label design software applications such as VnM® LabelDirect.\*

\*Please note that Cobra Systems does not support custom label design software applications or programs. For technical support on software applications please contact the respective software developer.

### Print Head Cleaning

The VnM SignMaker comes with a cleaning pen for the print head. Use the cleaning pen to gently clean the surface of the print head before each ribbon installation. Proper cleaning of the print head will ensure a longer life span of the print head and provide you with a superior print quality.

### Storage

To prolong the life of your VnM SignMaker, Cobra Systems recommends the VnM Travel Case for proper storage and protection in any environment.

### Opening Printer Covers

Do not open printer covers when the unit is powered on as this will cause an error. If done accidentally, turn printer off and close covers completely, then power back on.

### VnM SignMaker Troubleshooting

- |                |   |
|----------------|---|
| <b>ISSUE:</b>  | The Ink Ribbon comes out through the cutter after loading a new roll.   |
| <b>Remedy:</b> | The Ink Roll was changed while the printer was powered on. Turn the printer off, re-tape the Ink Roll to the take-up core and close the printer cover. Turn the power back on and the ink roll sensor will reset. |
| <b>ISSUE:</b>  | The red light on the printer is flashing.   |
| <b>Remedy:</b> | Turn the printer off and then on.   |
| <b>ISSUE:</b>  | Print quality is inconsistent and blotchy after loading new media.  |
| <b>Remedy:</b> | Check the test print section on the VnM keyboard for the correct print setting. For optimal print quality, and to keep the media and ribbon fingerprint-free, minimize direct contact with the media.             |

VnM®4 Pro SignMaker accessories sold separately, include:

VnM® Travel  
Case

VnM® Label Direct  
Sign Software

### Frequently Asked Questions

Q: How do I get out of a VnM® template?

A: To return to the main menu, or if you made an entry error, press the ESC key.

Q: How do I correct a spelling or entry error?

A: To correct the word you just typed, use the larger arrow, bottom right on the key pad. To correct the line you just typed, hit CLEAR. If the error is on a previous line, you will have to retype your sign. Press ESC key and start over.

Q: How do I create quotation marks on a sign?

A: While holding down the SHIFT key, press the PERIOD key twice in rapid succession.

Q: How do I prevent the ink ribbon from coming out with the vinyl and being cut?

A: Secure the ink ribbon to the take-up core with a piece of tape; wind ribbon on core to remove slack. Turn the printer off and wait two seconds, then turn it back on. Print a label.

Q: How do I correct poor print quality?

A: Make sure you are using the correct print setting for the vinyl and ink ribbon you're printing with. (Refer to page 8 for correct print settings.) Also, make sure the print head is clean. (Recommend cleaning the print head each time vinyl media and/or ink ribbon is installed.) Keep skin contact to a minimum when working with vinyl media.
